Certificate of
Attendance

Maik Wodarz

attended a

EB Guide

Training

held by EB Automotive on December 06/07/08/09, 2010. In particular the training covered

- Creating an HMI specification model
- Understanding the widget, event, state machine and data pool concept
- Working with the view and state chart editor
- Simulating the model using the GTF framework
- Using advanced concepts (widget templates, features, GTFScript)
